

Pasture Day

Grazing Network members & Interested Grazers,

On October 23rd, Darrell Emmick, former New York State Dairy Grazing specialist will give a talk entitled:

'Behaviour Based Grazing Management: Factors that Influence Dry Matter Intake'

at Ferme Reveuse 560 Concession 8 Curran Ontario K0B 1C0. See www.ferme-reveuse.ca.

There will be a discussion about pasture plant species and a field visit of Ferme Rêveuse's perennial ryegrass pastures.

Darrell has more than 30 years experience in assisting Dairy producers adopt Management Intensive Grazing and conducting grazing research in the USA. He has helped numerous dairy farms during difficult economic times to lower their cost of milk production with sound grazing management.

- 9.30 am (Swiss time) live demonstration of the **'Milkbar 60 Mobile'** for feeding calves & a chance to see bedding pack with peat moss.

The official meeting will begin at 10:00 am and will include a lunch. Cost for the day is \$25 for non-members.

Please register by Saturday October 20th by phone or email to the addresses below.
